BUY 0.1 lot @ 4069.82 -> \$-0.30

2026-08-03 04:16 · exit 4070.58 · mult 2.0 · strength 0.65 · brk_body 0.69 · UHV vol 262.0

Claude's reasoning

HADD toot gayi: 4068 ki chhat ab paar, entry 4069.82. Aur 05:44 se dhancha saaf uptrend hai - teen HIGHER LOWS (4059.5, 4064.5, 4065.5) aur charhte highs (4066.3, 4067.5, ab 4070). Yehi woh 4068 ka break hai jiska maine kai cycle se intezaar kiya. UHV 262 patla hai magar retracement ka kam volume breakout ke haq me hai.

BUY 0.1 lot @ 4067.29 -> \$-1.50

2026-08-03 03:18 · exit 4068.53 · mult 2.0 · strength 0.93 · brk_body 0.93 · UHV vol 396.0

Claude's reasoning

25-minute consolidation (4061.5-4065) ka upar break, aur woh poori consolidation tootay resistance 4060.8 ke UPAR ruki rahi. Rukh upar: 4052.6 se 4067.2 rally. strength 0.93 raat ka sabse ooncha, brk_body 0.93, UHV 396 sahi rang ka aur breakout volume us se kaafi kam. Yehi woh 4067.2 ka break hai jiska maine do cycle pehle kaha tha ke intezaar karungi.
